- English L,S,W,R
- Hindi U

Software Proficiency

- Azure
- Github
- cursor

Education

Bachelor of Technology in Artificial Intelligence and Data Science

Kongu Engineering College,
Perundurai, Erode

- Current CGPA : 8.71
- Expected graduation : July 2027

High School Education

Bharathi Vidya Bhavan Mat.Hr.Sec
School , Thindal, Erode

Projects

1) Lost and Found Portal: Finalist of IDEATHON '24. A smart campus solution to manage lost and found items efficiently. Enables students and college admins to report, verify, and claim items via role-based login, with real-time updates

2) Intel Unnati Project:

An AI-powered platform to monitor primary students' learning progress, suggest personalized study materials, and clarify doubts in real time. Adapts teaching based on weekly assessments and individual understanding levels.

3) Resume Parser:

A smart tool to extract key info from resumes for faster screening and shortlisting. Finalist-worthy architecture showcasing best practices in frontend development.

Certifications

- Microsoft Certified: Azure AI Engineer Associate
